#### DATA SHEET

# PCE-WB 20SD Environmental Meter Multipurpose real-time or data-recording temperature and humidity measuring device

PCE-WB 20SD is a data-logging environmental meter used to measure indoor / outdoor wet bulb globe temperature (WBGT), black globe temperature (TG), wet bulb temperature (WB), dew point temperature, air temperature (TA) and relative humidity. Thus, this multipurpose data-recording device is an ideal tool for evaluating heat stress risks in different work environments. The device is also used by indoor air quality (IAQ) inspection professionals to assess the performance of heating, ventilation and air conditioning (HVAC) systems.

Featuring a large and easy-to-read LCD screen with green backlight, this data-recording heat index meter has a programmable WBGT alarm setting with audible and visual alerts to notify workers of unsafe conditions in the workplace or at the job site in real time. PCE-WB 20SD offers manual (pushbutton) or automatic (adjustable 1 ... 3600 sec) sampling and accommodates SD memory cards from 1 ... 16 GB.

- For real-time or long-term temperature and humidity measurement applications
- Temperature can be displayed in metric or imperial units, i.e., degrees Celsius (°C) or degrees Fahrenheit (°F)
- Maximum, minimum, data hold and automatic power off (can be disabled) functions
- Programmable WBGT alarm setting with audible and visual alerts
- Manual (push-button) or automatic (adjustable 1 ... 3600 sec) sampling
- SD card memory (1 ... 16 GB) allows for quick and easy data transfer to a PC

### **Technical specifications**

# Wet Bulb Globe Temperature (WBGT)

Indoors: 0 ... +59 °C (32 ... 138 °F) Measurement range

Outdoors: 0 ... +56 °C (32 ... 132 °F)

± 1 °C (± 1.5 °F) from +15 ... +59 °C (59 ... 138 °F) Accuracy indoors

± 1.5 °C (± 2.7 °F) other temperature ranges

± 1.5 °C (± 2.7 °F) from +15 ... +56 °C (59 ... 132 °F) Accuracy outdoors

± 2 °C (± 3.6 °F) other temperature ranges

# Air Temperature (TA)

0 ... +50 °C Measurement range Resolution 0.1 °C Accuracy ± 0.6 °C

**Black-Globe Temperature** 

0 ... +80 °C Measuring range 0.1 °C Resolution ± 0.6 °C Accuracy

Humidity

Measurement range 5 ... 95 % R.H. Resolution 0.1 % R.H.

>70 % RH: ± (3 % read value + 1 % RH) Accuracy

< 70 % RH: ± 3 % RH

# **Dew Point Temperature**

-25.3 ... +48.9 °C Measuring range

Resolution 0.1 °C

# **Wet Bulb Temperature**

Data storage intervals

Measuring range -21.6 ... +50 °C

Resolution 0.1 °C

# **General Technical Specifications**

Inside /outdoors and no sun:

WBGT=  $(0.7 \times WB) + (0.3 \times TG)$ WBGT formula

Outdoors and sun:

WBGT= $(0.7 \times WB) + (0.2 \times TG) + (0.1 \times TA)$ 

Automatically: every 1 ... 3600 seconds

Manually: with every key press

Memory Card SD memory card 1 ... 16 GB

Interface **RS232 / USB** 

Display LCD with background lights (52 x 38 mm)

Operation Temperature 0 ... +50 °C Environmental Humidity<85 % R.H.

6 x 1.5 V AA batteries or 9 V Adapter Voltage Supply

DC 14 mA at standard operation

Power Consumption DC 37 mA with data storage and without Display lights on

Weight 489 g

Device: 177 x 68 x 445 mm **Dimensions** 

Bulb: Ø 75 mm

#### **Delivery content**

1 x PCE-WB 20 SD environmental meter

1 x SD card memory 1 x SD card reader 1 x user manual 1 x carrying case
